

Applications

Customer Group	Ceramic Tiles
Country	Poland
Product	SMP 8000
Variations	SMP 7000, SPP 2000
Application  	
Details Where is the SMP ? Yes, it's there. Completely covered with white enamel and still working continuously without fail. The pieces of fired clay are coated with a thin layer of a white waterproof enamel and wear resistant finish. The SMP 8500 PG J is detecting the tiles and activating the automatic shelf. Once the shelves are full, they are introduced into the furnace for drying.
